Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 September 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith (U.S. Patent No. 5,092,893).

Smith discloses a spinal reconstruction apparatus comprising a superior facet complex (see FIG. 1), including a plate (ref. #40) having an upper portion, a lower portion, and a vertical midline, with the upper portion being adapted for fixation to an upper vertebral body. A pair of gliding arms (ref. #13, 14) extend downwardly from the lower portion of the plate on respective sides of the midline (see FIG. 6) at an angle, each gliding arm having a longitudinal axis, an upper end with a first coupling to the superior facet complex, and a lower end with a second coupling to a lower vertebral body; at least the first coupling providing a limited degree of axial movement of each gliding arm to facilitate flexion, extension, and lateral bending. The upper and lower portions of the plate utilizes pedicle fixation, i.e. can be fixed to the bone via pedicle screws. The first coupling includes a slot (ref. #16) on the plate and a pin (ref. #15) on the gliding arm that slides along the slot. The second coupling provides a limited degree of axial movement of each gliding arm. The second coupling includes a slot (ref. #17) on

Art Unit: 3733

the gliding arm and a pedicle screw with a pin (ref. #15) or ball that engages with the slot. The first coupling provides a limited degree of pivoting from side to side. The upper end of each gliding arm is received by a lower sleeve on either side of the plate. The superior facet complex further includes an outer surface with soft tissue attachment points, i.e. any point on surface of the implant on which soft tissue can be attached. Both the first and second couplings providing a limited degree of axial movement of each gliding arm to facilitate flexion, extension, and lateral bending. The first coupling further provides a limited degree of pivoting from side to side.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3733

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
